SKILLS

- n8n Workflows
- OpenAI API
- Prompt Engineering
- JavaScript
- HTML5/CSS3
- Telegram Bot API
- Data Annotation
- Python
- REST APIs
- Google Sheets API
- Git
- Workflow Optimization
- Customer Support

EDUCATION

Bachelor of Science | State
University (2018 - 2022)

PROFESSIONAL SUMMARY

Dynamic and detail-oriented AI Automation Specialist with over 5 years of experience in building automated workflows, custom AI agents, and web tools. Proficient in workflow development, LLM API integration, JavaScript, HTML/CSS, and data processing. Proven track record of streamlining client operations and optimizing data processing systems.

WORK EXPERIENCE

- Lead Automation Engineer | NextGen Workflows (2024 - Present)
- Designed and deployed scalable n8n automation workflows integrating OpenAI APIs, Telegram bots, and external PDF engines.
 - Reduced manual document processing time by 60% through automated structured JSON parsing and dynamic HTML/CSS template generation.
 - Managed database integrations with Google Sheets and REST API endpoints for real-time lead tracking.

- Data Annotator & Technical Specialist | CloudData AI (2022 - 2024)
- Evaluated and annotated complex datasets for LLM fine-tuning, transcription, and prompt engineering quality assurance.
 - Collaborated with software engineering teams to debug workflow pipelines and improve prompt accuracy.
 - Managed user support and technical inquiries for cross-platform automation tools.
